

## **Erratum Safe container transport north of the Wadden Islands - July 2020**

In the report 'Safe container transport north of the Wadden Islands – Lessons learned following the loss of containers from MSC ZOE' as published on June 25, 2020 an incorrect reference was made by mistake in chapter 3.3.1 (page 44).

On July 31, 2020, the following revision was made in the digital report on the website of the Dutch Safety Board:

The sentence 'Within the EEZ, all states have freedom of shipping and innocent passage' is substituted by 'Within the EEZ, all states have freedom of navigation'.
